

Company Profile

ห้างหุ้นส่วนจำกัด วงกลม

WONGKLOM Limited Partnership

BACKGROUND

Wongklom (WK-BLOCK), established since 1977, is the concrete block manufacturer located at Chaloe Phra Kiat, Saraburi. The factory has an area of 50 Rai with annex of 150 Rai, and is fully equipped with automatic machine (100 million baht) under Besser™,  the largest concrete-block machine producer in the United State of America . In addition, Wongklom is cooperated with many well-known Thai universities such as Chulalongkorn University, King Mongkut's University of Technology North Bangkok and Thammasat University, and an international institute like World Center of Concrete Technology (WCCT).  The WCTT has often provided concrete block technology (CMU technology) trainings to our employees. The factory has met WCCT and Thai Industrial standards to assure customer satisfaction with high-quality concrete block for all purposes.

Almost 40 years, Wongklom concrete block has been accepted and widely used in many renowned buildings and facilities such as the main terminal of Suvarnabhumi Airport, Metropolitan Rapid Transit (MRT), and Nam Theun 2 Dam, Laos.

VISION

Wongklom is now the leading manufacturer with the maximum capacity and the highest quality of Concrete Masonry in Thailand. Our company greatly concerns customer satisfaction and rapid service while taking responsibilities to environment and society.

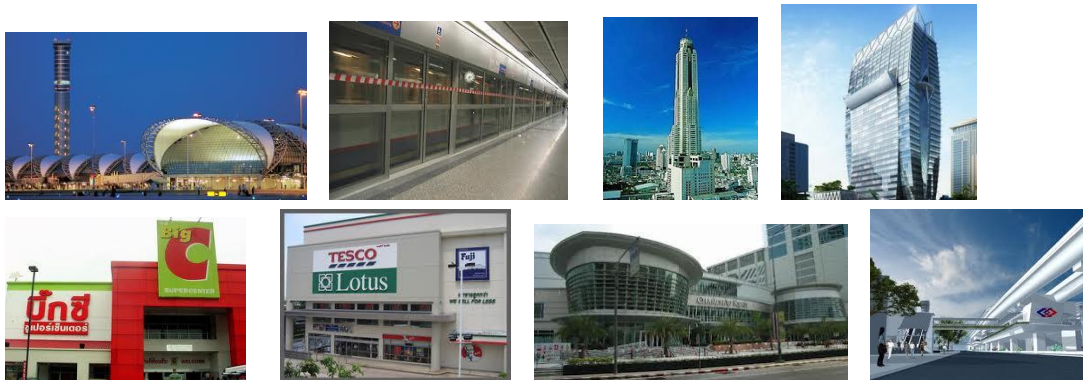

EFFECTIVE PRODUCTION AND SERVICE

Wongklom has produced a great number (> 1 millions) of various-sized concrete blocks each month. Moreover, the company is a partner of Kitirat Trading Company, Thailand's leading logistics distributor possessing more than **200** trailers covering all over the country.
